Success Story Directions

The Success Story must describe an activity/program/policy that improved the nutrition environment in your school/district. You may submit at least one (1) but may submit up to three (3) Success Stories (each one as a separate submission). The content required for each section is explained within the section. Use terms that are clearly understood by a non-school audience; avoid using education jargon and use formatting that is easy to read (e.g. paragraphs, bullets, white space). Print a copy before submitting your Success Story.

Success Story Title

Does the **title** ... capture attention, contain a verb, and avoid acronyms?

Issue

Does the **issue** ... have a strong lead sentence; provide specific information about the issue to make a clear and concise statement about the issue?

Intervention

Does the **intervention** ... make a clear and concise statement about the intervention and identify who, what, when, where, why, and how; avoid wordiness and passive/impersonal language?

Impact

Does the **impact** ... give specific outcomes; avoid broad statements (e.g. a significant amount of money was saved); provide conclusions that effectively wrap up the story?

Identify the number of students, staff and community members impacted.

Students _____ Staff _____ Community _____
