~~**67-24-01-08. Payments.** The proportionate payment will be calculated by multiplying average daily membership times the weighting factor for the elementary school determined under North Dakota Century Code section 15.1-27-07 times the educational support per student provided under North Dakota Century Code section 15.1-27-04. If necessary, the educational support per student must be reduced to stay within the total amount of funding made available for remedial elementary programs under North Dakota Century Code section 15.1-27-19. Average daily membership must be reported by course and must be computed based on the following formula:~~

- ~~1. The quotient of the total hours membership divided by one hundred twenty hours times the product of .25 times one hundred eighty days equals the computed days membership.~~

$$\text{Computed days membership} = \text{Total hours membership} / 120 \times .25 \times 180 \text{ days}$$

- ~~2. The computed days membership for each class is totaled to obtain the aggregate computed days membership. The aggregate computed days membership is divided by one hundred eighty days to obtain the average daily membership.~~

$$\text{Average daily membership} = \Sigma \text{ Computed days membership} / 180$$

Summer school payments will be made through the state school aid system based on the number of full time equivalent students enrolled in summer courses multiplied by the weight for summer education programs in North Dakota Century Code § 15.1-27-03.1. Fulltime equivalent students are determined for all courses by dividing the total membership hours by 120 hours and multiplying by .25.
