

PART 3: DATA COLLECTION, PUBLIC REPORTING, AND PLANNING

Requirements

The State plan must describe the State's current ability to collect the data or other information needed for the assurance indicators and descriptors as well as the State's current ability to publicly report (as defined in the Notice of Final Requirements, included here as Appendix E) the data. If the State is currently able to fully collect and publicly report the required data or other information, the State must provide a URL where the most recent data or information may be accessed. If a State is not currently able to collect or publicly report the data or other information, the plan must describe the State's process and timeline for developing and implementing the means to do so as soon as possible but no later than September 30, 2011. These requirements apply to the assurance indicators and descriptors in the following education reform assurance areas: (a) Achieving Equity in Teacher Distribution, (c) Standards and Assessments (with the exception, in many cases, of Indicators (c)(11) and (c)(12)), and (d) Supporting Struggling Schools. Sections related to these assurances are located in sections I, III, and IV of Part 3A and Section I of Part 3B in the application.

In the event that a State will develop, but not implement, the ability to fully collect and publicly report the data for Indicator(s) (c)(11) and/or (c)(12), its plan need not meet the requirements of Section I of Part 3B. Rather, a State should complete a plan that meets the requirements of Section V of Part 3B for the relevant indicator(s). If a State will be able to both develop and implement collection and public reporting of either of these indicators, the plan requirements of Section I of Part 3B will apply to the relevant indicator(s).

Regarding education reform assurance area (b) Improving Collection and Use of Data, the State must describe in the State plan whether the State's data system includes the required elements of a statewide longitudinal data system and whether the State provides teachers with their students' growth data and information related to individual teacher impact. If the State does not meet the requirement, the State plan must describe the State's process and timeline for developing and implementing the means to meet the requirement in accordance with the requirements in the notice. Sections related to this assurance are Section II of Part 3A and Sections II, III, and IV of Part 3B.

The data or information needed for an assurance indicator or descriptor are in some cases already reported to the Department by the State, or are provided by the Department. In those cases, it is understood that the State does and is currently able to collect the data or information. For those elements, the State's plan only needs to address the State's ability to publicly report the data or information, and the State does not need to include a plan for collecting the data or information in Part 3B. The indicators and descriptors involving data or information currently reported to the Department or provided by the Department are marked below with a Confirm icon (see Icon Key below). Sections requiring States to confirm data or information already reported to the Department contain specific links to the appropriate Department webpage. The overall webpage housing all information for indicators requiring confirmation is <http://www.ed.gov/programs/statestabilization/confirm-indicators.html>.

Some elements in this application are of a cross-cutting nature, sharing indicators and/or definitions with another Recovery Act initiative, Race to the Top. These elements are marked by a Cross-Cutting icon with the recovery.gov logo and the Race to the Top logo (see Icon Key below). It is the Department's hope that marking these cross-cutting elements will facilitate consistency and improve the ease of completing the application for the Race to the Top program.

Numbering of Fields

Applicants may notice small numbers to the left of checkboxes and text fields in Part 3A. These numbers do not have any significance in terms of point values or codes. Rather, they are designed to be used by both applicants and Department staff alike as a convenient reference point when referring to a particular part of the application.

Overview of Part 3

Part 3A, *Indicators and Descriptors under the Assurances*, is designed to collect short answers about the State's current status with respect to each indicator and descriptor. If you are using the macro-enabled¹ MS Word version of this form, you will be able to check boxes and type your answers directly into the form. If you wish to attach narrative answers in a separate document, you may do so, but be sure to clearly note in the relevant text box that the response is attached and mark the attachment with the citation of the indicator or descriptor to which you are responding.

¹ To enable macros in Microsoft Word, select Save As (if you are using the 2007 version, Save As is under the round icon in the top left hand corner; in older versions, Save As is under the File menu) and from the Save File as Type menu, select Word Macro-Enabled Document.

Part 3B is the *State Plan* section. For those indicators and descriptors for which the State is not currently collecting and/or publicly reporting the requested data and information in such a way that addresses the program requirements, you must provide a plan for doing so in Part 3B. If, based on your answer, you are directed to address the element in Part 3B, write the element reference in the Plan Element Verification chart in Part 3B to keep a running list of the items you will need to address in your State Plan. Directions for which elements must be addressed in the State Plan are embedded into each indicator and descriptor boxes below. Part 3B contains five subsections. The subsections provide separate instructions for the plan elements that must be included for:

- I. Assurances (a), (c) (with the exception of Indicators (c)(11) and (c)(12)), and (d);
- II. Indicator (b)(1);
- III. Indicator (b)(2);
- IV. Indicator (b)(3); and,
- V. If applicable, Indicators (c)(11) and (c)(12) (Section V).

PART 3A: ASSURANCE INDICATORS AND DESCRIPTORS

Instructions

For each indicator and descriptor, please follow the specific directions in the boxes below. There are two basic types of elements: indicators and descriptors.

- An **indicator** requests a discrete response (e.g., a yes/no answer or short answer) about whether a State is collecting or publicly reporting certain information, as well as where the information can be found. Indicators that involve data already submitted by States to the Department through preexisting collections will only need to be confirmed. The Department will ask States to confirm whether or not these data are accurate and to verify public reporting of them. States need not submit the actual data for each indicator; rather, the data should be reported directly to the public per the application instructions.
- A **descriptor** asks about information which could be provided in a narrative response (e.g., about the development of a type of assessment or teacher evaluation system) about the progress or development of system elements. The Department of Education also asks whether information requested in descriptors is publicly reported. As with the indicators, States do not have to submit the actual descriptor information to the Department. Rather, the State must publicly report the information per the application instructions.

I. Assurance (a): Achieving Equity in Teacher Distribution

A State must collect and publicly report data and other information on: (1) the extent that students in high- and low-poverty schools in the State have access to highly qualified teachers; (2) the extent that current strategies and efforts to address inequities in the distribution of inexperienced, unqualified, or out-of-field teachers; (3) how teacher and principal performance is evaluated and how performance ratings are used; and (4) the distribution of performance evaluation ratings or levels among teachers and principals.

Indicator (a)(1)	Confirm, for the State, the number and percentage (including numerator and denominator) of core academic courses taught, in the highest-poverty and lowest-poverty schools, by teachers who are highly qualified consistent with section 9101(23) of the Elementary and Secondary Education Act of 1965, as amended (ESEA).

The plan must also include the nature and frequency of reports that the State will provide to the public regarding its progress in developing and implementing those means; the website where the State will make the plan and progress reports publicly available (as defined in the Notice of Final Requirements, Definitions, and Approval Criteria for the SFSF Phase II), the amount of funds the State is using or will use to develop and implement those means, and whether the funds are or will be Federal, State, or local funds.

- The nature and frequency of reports that the State will provide to the public regarding its progress in developing and implementing those means; and
- The amount of funds the State is using or will use to develop and implement those means, and whether the funds are or will be Federal, State, or local funds.

Furthermore, the plan must satisfy the following general requirements:

- (A) Identify the agency or agencies in the State responsible for the development, execution, and oversight of the plan, including the institutional infrastructure and describe the capacity of the agency or agencies as they relate to each of those tasks;
- (B) Identify the agency or agencies, institutions, or organizations, if any, providing technical assistance or other support in the development, execution, and oversight of the plan, and describe the nature of such technical assistance or other support;
- (C) Provide the overall budget for the development, execution, and oversight of the plan; and
- (D) Describe the way the State will publicly report the plan and the State's progress reports on its plan, including the nature and frequency of updated reports to the public on State actions taken under the plan and the website where the State will make the plan and progress reports publicly available (as defined in the Notice of Final Requirements, Definitions, and Approval Criteria for the SFSF Phase II).

V. INDICATORS (c)(11) AND (c)(12)

Important note regarding this section:

In the case of new Indicators (c)(11) and (c)(12), regarding the data States will collect from IHEs, the State is required to, at a minimum, possess the ability to collect and report the data. In such circumstances, a State plan need only address the development of capacity, and not implementation and reporting for the relevant indicators.

If the State will develop and implement the means to collect and publicly report the data (i.e., the State will collect and publicly report the data) for either of these indicators by September 30, 2011, the full plan requirements for this section **do** apply. If that is the case, please report all elements of that plan in Part 3B, Section I above.

State Plan Instructions: For each of *Indicators (c)(11) and (c)(12)* for which the State is not able to fully collect or publicly report annually the required data or information (as indicated in Part 3A), please attach a plan that provides:

- (1) The process and timeline for achieving the ability to implement the means to fully collect and/or publicly report (as required) the data or information by September 30, 2011, including:
 - The milestones established toward developing those means;
 - The date by which the State expects to reach each such milestone; and any obstacles that may prevent the State from developing those means by September 30, 2011, including but not limited to requirements and prohibitions of State law and policy;
 - The nature and frequency of reports that the State will provide to the public regarding its progress in developing those means; and
 - The amount of funds the State is using or will use to develop those means, and whether the funds are or will be Federal, State, or local funds.
- (2) A description of the evidence that the State will provide to the Department of Education to demonstrate that it has developed the means to collect and publicly report the data for each indicator for which the State is not able to fully collect or publicly report annually the required data, by September 30, 2011.

Furthermore, the plan must satisfy the following general requirements:

- (A) Identify the agency or agencies in the State responsible for the development, execution, and oversight of the plan, including the institutional infrastructure and describe the capacity of the agency or agencies as they relate to each of those tasks;
- (B) Identify the agency or agencies, institutions, or organizations, if any, providing technical assistance or other support in the development, execution, and oversight of the plan, and describe the nature of such technical assistance or other support;
- (C) Provide the overall budget for the development, execution, and oversight of the plan; and
- (D) Describe the way the State will publicly report the plan and the State’s progress reports on its plan, including the nature and frequency of updated reports to the public on State actions taken under the plan and the website where the State will make the plan and progress reports publicly available (as defined in the Notice of Final Requirements, Definitions, and Approval Criteria for the SFSF Phase II).

Plan Element Verification: Please check only the boxes that apply in the following chart to indicate which elements must be addressed in this section of your state plan:
