State Title I Office

2006 Caught in the Act Award Recipients

The State Title I office has established an award entitled “Caught in the Act.” This award recognizes Title I staff who have been “caught in the act” of performing exceptional Title I services and are being honored for these outstanding acts. Two Title I personnel were recognized for this award: Sandra Starr from the Twin Buttes Public School District and Ann Perrizo from the Fargo Public School District. These awards were also announced at the 2006 Fall Title I Workshop held in October.

Sandra Starr was recognized for the outstanding job she has done in coordinating Twin Buttes schoolwide and program improvement efforts. Sandra is a deserving recipient of a Title I Caught in the Act Award.

Ann Perrizo was recognized for the outstanding job she does in a private school, as referenced by communication from parents of a Title I student. We are pleased to recognize her with a Title I Caught in the Act Award.

As recipients of this award, these two educators each received a framed certificate and a grant award for \$3,000. These funds can be used for any allowable Title I expenditure for the Title I program in their school district.
