List of Math Assessments

This list is not meant to be a list of approved assessments, nor is it intended to be all inclusive. The assessments listed are not necessarily good or bad. This is simply a resource to provide you with information to determine which assessment would provide the most beneficial data. The Department is in no way endorsing any of the assessments listed here.

This list is intended to be a resource to assist you in reasearching assessments. The Department is in no way endorsing any of the assessments listed here. The fact that an assessment is on this list does not necessarily mean that the assessment is a good or bad assessment. Before choosing assessments for your school and students, make sure each assessment is thoroughly researched by your school staff. This is a fluid list of resources of available assessments. The DPI welcomes suggestions and comments and would be glad to add to this list if you contact us and provide us with information on other assessments.
